Lutterworth taxes up just 4.4 per cent

Reserve set up for fire department

Despite a large commitment to a new fire department reserve fund, Lutterworth Township Council has managed to limit the municipal portion of this year's tax hike to 3.5 per cent.

At last Tuesday's meeting, council approved its 1988 budget. When combined with the education and county levies, the overall residential tax increase amounts to only 4.4 per cent.

One of the key items in this year's budget is the establishment of a reserve fund for setting up a future fire department in the municipality. By closing out a few other reserve funds, council was able to transfer a total of \$17,800 into the fire department fund. In addition, council passed a resolution which states that any surplus funds at the end of 1988 will be transferred into that fund.

The need to establish a fire department in Lutterworth Township was underscored recently when Anson, Hindon and Minden Townships decided to cancel its fire coverage agreement at the end of this year. Presently, the Minden Fire Department covers a small area of Lutterworth Township.

Lutterworth also purchases fire protection from two other neighbouring municipalities.

Earlier at last Tuesday's meeting, council was asked to respond to some

concerns from resident John Ellis in regard to the question of fire protection. He said he is worried that either municipal taxes will skyrocket to finance a fire department,

or fire insurance rates will increase because there will be no protection.

Reeve Bill Valentine responded that the Fire Marshall's Office has been encouraging the township to set up its own fire department for the past 10 to 15 years. He said council is not yet sure what the costs will be to the municipality, or whether it will actually be needed in the end.

Tashlin wins bronze medal at All-Ontario meet

Three athletes from Haliburton Highlands Secondary School have returned from the All-Ontario track and field competition with a sixth place finish or better. The competition was held this past weekend in Toronto and followed a number of local and regional meets to determine the top high school athletes in the province. HHSS was represented by six students, who competed in five events.

Among the top finishers were Leslie Tashlin who placed third in the senior girls 100 metre hurdles. Last year, in the same event, Leslie placed second. Her time this year was 15.2 seconds.

Ron Perrin captured a fourth place finish in the senior boys javelin throw. His distance was 53.22 metres.

Placing sixth in the junior boys discus was Marty Andrews. He gained the sixth place position with a toss of 40 metres.

High school track coaches said they were pleased with the performances of the competitors this year.

Ride returns this weekend

The annual Ride For Sight, the fund raising effort by motorcyclists from throughout Ontario for the eye disease Retinitis Pigmentosa, returns to Minden this weekend. A record number of participants is expected to attend this year and once again, the OPP Golden Helmets will lead the main group out of Toronto.

For a complete report on the Ride and a schedule for the weekend, see the latest edition of **This Week in the Highlands** included with today's newspaper.

Grace Coburn was honoured last week by the Hyland Crest Auxiliary with a special party to thank her for "20 years of caring". Grace was the Auxiliary president when the organization was formed and has continued to be active with the Auxiliary to this day. As part of the celebration at the home last week, many of the original executive members were in attendance.

Caterpillars at most destructive stage

On a calm, clear day in Haliburton County, the sound of a light rain beating against the forest floor can be heard. It's not rain, though. What is falling to the ground is the droppings of millions of tiny caterpillars as they chew their way through the leaves on a wide variety of host trees.

The chance of a late spring frost killing large

numbers of the Forest Tent Caterpillars that have invaded the county has passed. The caterpillars are gradually approaching their full size of about two inches and in another week or two, will be spinning cocoons in the base of uneaten leaves.

In the meantime though, they are at their most destructive stage and have begun migrating en masse

to new feeding grounds. Having eaten all the leaves off their original host trees, the caterpillars are moving to greener pastures. They travel in such great numbers that, in some areas, they completely cover the roadways they cross. The Ontario Provincial Police have gone so far as to issue a warning that driving conditions may become

slippery in areas.

In spite of what may appear to be serious damage to the trees, the Ministry of Natural Resources says the defoliation is only temporary. Gary Clements, a private lands extension technician with the ministry says the caterpillars are more of a nuisance than a serious threat to the trees.

Only those trees that are already experiencing some form of stress will be killed, he said. Most trees are capable of sprouting a new growth of leaves. However, the energy required to re-foliate could be too much for older or diseased trees.

Sugar maple and oak trees are this insect's favourite and are normally the first to be stripped.

However, now that the caterpillars are migrating, they will be consuming leaves from other hardwood trees such as aspen, poplar, ash and birch.

The forest tent caterpillar is native to Ontario's forests and these infestations happen somewhere in Ontario every ten years, on the average. Pop-

Independently owned and operated

Prices effective until Saturday, June 11, 1988. We reserve the right to limit quantities.

Kinmount Branch 441 of the Royal Canadian Legion held its annual election of officers on May 21 with Zone Commander Stan Moore and Deputy Zone Commander Ken Bell presiding over the elections. Elected officers shown here from the right are, front row, John McMahon, first vice president; Eric Stearns, executive; Cathy King, Secretary Treasurer; Cindy Watson, third vice president; Evelyn McMahon, executive; Flo Jopling, executive. In the back row are: Keith Hockley, second vice president; Al Jopling, executive; Don Holden, president, and Norm Gilmore, past president and executive member.

New York team is tops in Black Bear Rally

The 1988 Black Bear car rally went off without a hitch on Saturday, May 28, as one by one, 34 cars left the starting line in front of the Rockcliffe Hotel on Minden's main street.

The number two car, driven by Bruno Kreibich and co-driven by Clark Bond was the overall winner in the rally, put on each year by the Maple Leaf Rally Club.

Driving their 1983 Audi Quattro, Kreibich and

Bond drove to victory in the Open class of this event. Kreibich is from Ridgewood-Queens in New York. Bond hails from Bay City, Michigan.

Henry and Cynthia Krolkowski, driving a 1986 Dodge Omni Turbo, finished in second place in the open class. The team which hails from Wyandotte, Michigan, also placed first in the Production B class.

Driving in car number

eight, the team of Kevin Odea and Gordon Tracz took third place. O'Dea, from South Wales, New York, and Tracz from Tonawanda, New York, made their third-place run in a 1980 Triumph.

An Ontario team was the top finisher in the Production A class. Andrew Browning from Acton and Ross Wood from Milton drove their

1986 Toyota Corolla to the win in Production A and a fourth place overall.

4.4% tax boost in Lutterworth

(from page 1)

"Everything is in such a state of flux," said Valentine. There is talk of amalgamation at the county council level and there is a municipal election just a few months away which could bring about changes on both Minden and Lutterworth councils.

Council stressed that fire

protection is being provided by two other municipalities, while the Minden Fire Department's coverage area in Lutterworth is small.

Although there is a tremendous amount of ground to be covered before Lutterworth has a fire department of its own, council is confident that it will not be without fire protection.

Looking good

Although it was the cause of much aggravation during the winter, it sure is nice to see the final touches being applied to the reconstructed section of Bobcaygeon Road.

Last fall, Anson, Hindon and Minden Townships secured substantial provincial funding for this project, which was expected to cost about three quarters of a million dollars. When winter began setting in, the project was put on hold until this spring, making for some poor driving conditions.

But that is all in the past now. The new pavement is down, sidewalks are in place on both sides of the street all the way up to the school and to Staunworth Court, and sod is being laid along the boulevards. The end result is a very attractive strip of roadway which effectively extends the main commercial area of the village.

Minden has a very attractive downtown area with its red brick sidewalks and the beautiful park land along the Gull River. However, up until this year, the village's looks turned a little sour on the north side of the Gull River Bridge. Now, though, with this road work done, the village is attractive on both sides of the bridge.

Since we pointed criticism at council and the roads department for the state of this road in the winter, we feel it fair to credit them with the fine condition of the road now.

Bowed ferns

Progressive destruction

There's something about making weapons that brings out the true boneheadedness of man.

Consider the Lunge Bomb.

It was an anti-tank weapon devised by some Japanese military genius back in the early days of the Second World War. The Lunge bomb consisted of a long spiked pole with a grenade attached to it. Theoretically a Japanese soldier would run up to a tank, ram the spiked pole into its flank (don't ask me how - this ain't my concept) and retire to a safe bunker while the grenade did the rest. It was all academic anyway, since the safety pin had to be pulled before the soldier made his lunge. As soon as he rammed the grenade against the tank, it blew up - and so did the soldier.

Russian strategists refined the idea with the Dog Bomb. They strapped mines onto dogs that had been trained to look for food underneath tanks. The dogs were taken to the front lines, pointed toward the advancing German tanks and told to "go fetch". Diabolical, da?

Diabolical, nyet. The Soviets forgot that the dogs had been trained to recognize Russian, not

black 'n white

by Arthur Black

German tanks. The dogs did a U-turn, scampered under the Russian tanks behind the lines and blew them to smithereens.

Our guys didn't do a whole lot better. Consider Britain's infamous 'sticky' bomb.

It was a hand grenade with an adhesive coating which was supposed to make it stick to the side of enemy vehicles or structures - and it probably would have, if anybody'd ever been to get one of the damn things off their hands. The famous 'sticky bomb' usually stuck to the mitt of the poor Tommy who was trying to get rid of it.

Warfare a la Keystone Cops has not been confined to hand grenades. Most of the truly colossal military bungles are shrouded in the mists of government secrecy, but a few slipped by the

military censors. Such as the case of the HMS *Trinidad*.

On patrol in the Arctic, the British cruiser flushed a German warship and fired off a torpedo. The British watched breathlessly as the line of bubbles snaked inexorably toward the German warship's belly. Then a bad thing happened. The line of bubbles began to ... curve gently to starboard. The British crew of the *Trinidad* watched as the gentle curve of bubbles became a huge button-hook.

The torpedo was coming back home.

And it did. The HMS *Trinidad* was struck amidships and knocked out of action for the rest of the war. Why? Because no one had figured out that the ice-cold Arctic water might freeze the oil used to lubricate the torpedo's steering mechanism.

I'd love to report that Canada is above this sort of Colonel Blimpish bumbling, but that's not the case. When it comes to military snafus, Canucks are in the front lines.

(more on page 5).

Licence sales better than expected

by John Eakins, M.P.P.

This week I would like to talk about an important part of Victoria - Haliburton - the sport fishing industry.

Sales of the new Ontario resident sport fishing licence, which came into effect last year, have exceeded the expectations of the Ministry of Natural Resources.

The licence became mandatory on January 1, 1987 for most adults in Ontario aged 18 to 64. The first licence were available in November of 1986 and it was predicted that sales of the 1987 issue would reach \$8.2 million. But by the end of 1987, more than 900,000 licences were sold, generating in excess of \$9 million in revenues.

All of the money from the sale of the licences are being and will be allocated to fisheries management projects across Ontario. From November 1986 to the present time, a total of \$8.9 million has been allocated to expand the fisheries program. The allocation for the fiscal year of 1988/89 will be increased by \$950,000 to be a total of \$9.15 million.

For the 1987/88 fiscal year, 30 per cent of the \$8.2 million budget, almost \$2.5 million, was spent on the fisheries projects in

northern Ontario. Another 46 per cent, or about \$3.8 million, was spent in southern Ontario. The remaining 24 per cent was distributed throughout the

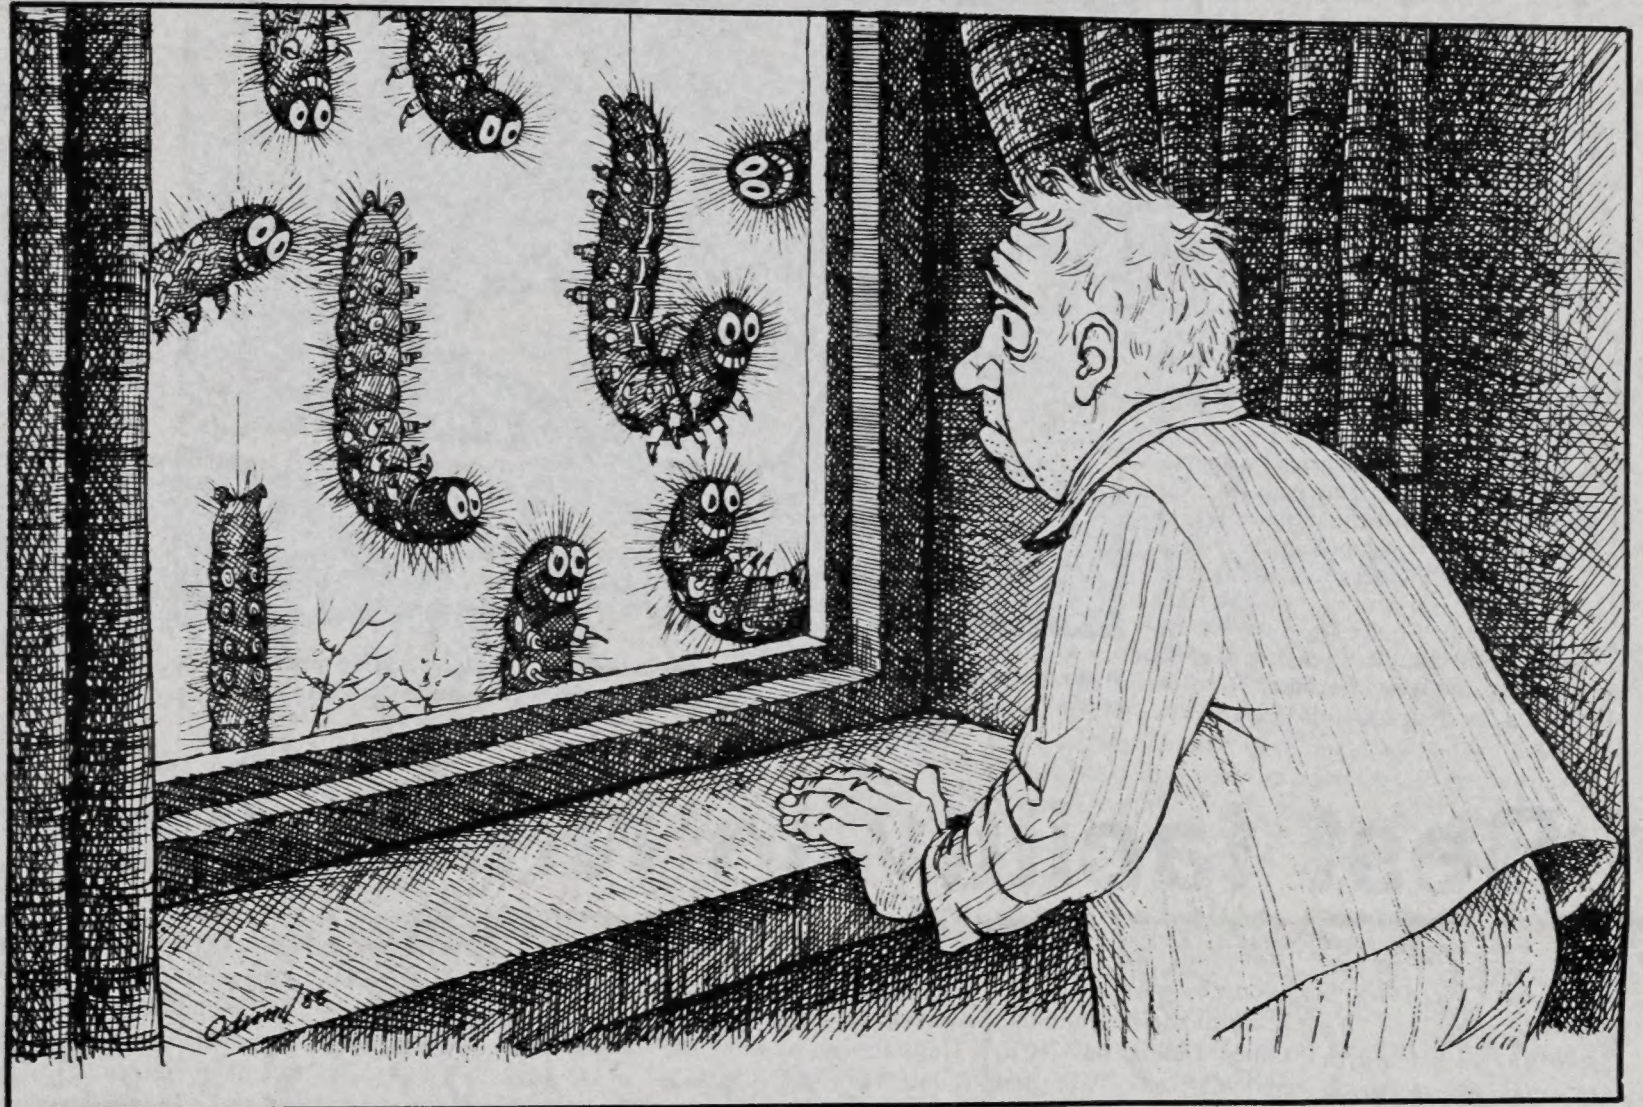

province to fund projects such as research, fish culture, public service and general habitat assessment and rehabilitation. This benefits the whole of

Ontario.

The types of projects include: population and habitat management; large scale rehabilitation of degraded habitat; law en-

forcement; public education; inventory and assessment; research; fish culture and minor capital works such as the construction of access points. The funding

also covers the cost of producing, distributing and accounting for licence sales.

"GOOD MORNING!"

May weather

by Phil Graham

	C	F
Average high	21.3	70.3
Average low	5.8	42.4
Average for month	13.5	56.3

Lowest temperature May 3	-2.0	28.4
Total rainfall	75.5mm	2.9 in.
Days with rain	8	
Days mostly sunny	16	
Mornings with frost	5	
Days with thunderstorms	2	
River water temperature May 31	19.5	67.1
River water temperature last May 31	19.5	67.1

May was a quite pleasant month, with rainfall and temperatures about average. In fact the past three years during May the average temperature was within half a degree of 13.6 degrees C (56.4 F).

Normal wind direction is usually west or southwest. This May generally wind direction has been north, northeast and east, probably caused by low pressures in Quebec and the East Coast.

June is tornado month. There could be severe thunderstorms and/or tornadoes; keep a wary eye on storms to southwest, west or northwest. June 16, 1986 a tornado crossed Haliburton County from Brady Lake to near Martin's Mill, Harcourt, causing severe damage.

Costly weaponry

(from page 4)

Last year, U.S. Armed Forces discontinued the use of the M-16 rifle, a weapon that was cursed by G.I.'s in Vietnam for its balkiness and inaccuracy. Does that mean the end of the M16? Hardly. The Canadian government likes it so much we bought the rights and now make our very own M-16's right here in Canada.

At a cost of \$1,314 per rifle - which is only about twice as much as we'd have paid if we'd bought them direct from the U.S.

Oh well, it's less insane and a whole lot cheaper than Canada's most recent military absurdity - ordering a fleet of nuclear submarines to ride herd on our icebergs. Twenty years ago the Americans sent a supertanker, the S.S. *Manhattan*, through

the Arctic. Our government nearly hemorrhaged for fear that it might leak some oil and destroy the fragile Arctic ecosystem. Now the government plans to unleash nuclear submarines on the same delicate environment.

The submarines, which experts say will cost us more than Canada's entire defence budget for 1987, aren't available yet. They're being built by other military experts in Europe. Last month, a brand new multi-million dollar British submarine made headlines around the world before it even hit the water. A huge component of the submarine's top deck had been welded on upside down. "The instructions weren't clear," said a spokesman.

Good luck, Arctic.

Good luck, world.

Top paddlers try Gull

This summer's World Cup race at the Gull River on July 1 and 2 will be host to many of the top paddlers in the world, including many present and former World Champions.

In mens' Kayak, Anton Prijon of West Germany reaffirmed his family's role in kayaking as he became World Champion at Bourg St. Maurice in 1989. He will have to be sharp, paddling against three-time World Champ Richard Fox (Great Britain) as well as a very strong Yugoslavian team.

Canadians David Ford (Alberta) and Mike Elrick (Ontario) are very much at home on the Gull and may have the home-advantage on the fast narrow course.

In the hotly contested women's kayak class, veteran paddler Liz Sharman of Great Britain (twice World Champion) will be looking to add a World Cup title to her collection against the fierce competition of Myriam Jerusalem of France (former World Champ and 2nd last year). Elisabeth Micheler of West Germany (3rd in Worlds last year), Cathy Hearn of the

USA (former World Champ), and Marie Francoi Grange Prigen, a hot new talent from France.

Joanne Woods of British Columbia (last year's US National Champ) and Sheryl Boyle of Ontario (last year's US

National Champ) will be adding their own special talents to this class as both women are capable of championship paddling.

In the ever-popular mens' canoe class, we will see another of the 10-year-old USA canoe dynasty struggle between Jon Lugbill (four-time and present World Champ) and David Hearn (former World Champ and oft second to Jon). The last time these two men met at the Gull, Jon turned in the fastest run of the morning even beating the kayak times. Their young US protegee, Jedd Prentice (6th place last year at his first World Championships) will be looking to dethrone one of the two 'Kings' of canoeing as will Canada's rising new star Larry Norman of Ontario.

All told, the stage has been set for the most exciting white-water slalom racing ever held in Ontario and perhaps in Canada. Even more exciting that this series of races are setting the stage for the next World Cup in 1989 and the World Championships at the Savage River, Maryland in 1989.

White water canoeing and kayaking is an exciting and unique spectator sport, and this year's World Cup '88 event will attract the top racers from around the world.

Best facility in North America

What began in the late 1970's as a need for a training river for the National Whitewater Team has, over a decade later, countless hours of volunteer labour and

thousands of dollars, become what Mondy Engle of the International Canoe Federations (ICF) Slalom and Wildwater Committee called the best whitewater racing facility

in North America.

The site, which is just outside of Minden on the Gull River, is now the home of the Ontario Provincial Team, a National Training Site

and, the annual site of many provincial and international competitions. It is quickly gaining a reputation among paddlers as one of the fastest and most difficult

race sites in North America.

The Gull River which is found on the Minden Wild Water Preserve, has also been altered physically to adapt the rapid for racing

and also safety. The Preserve itself is owned and operated by the Ontario Wild Water Affiliation with financial aid coming from the Ministry of Tourism

Hustlers win home opener

The Rockcliffe Hustlers line up to congratulate Greg Newell as he completes a circuit of the bases after hitting a home run in the opening home game of the season. The Hustlers blanked Lindsay T-Bars 9 - 0.

After suffering a 3 - 2 defeat in Lindsay on Sunday, May 29, to Lindsay T Bars, the Minden Rockcliffe Hustlers' bats turned hot as the locals came back with a vengeance to defeat the same club 9 - 0, in the home opener Thursday night.

Greg Newell led the Hustlers with two home runs, going 3 for 3 at the plate, Barry Shaw also had a round tripper, Bob Johnson had 2 doubles and a single, Dwight Sisson a double and a single.

Jack Snell pitched a strong game, fanning 9 batters, and allowing 2 scratch hits.

The Hustlers record is now 2 wins and a loss.

The remaining home game schedule includes:

- June 16: Woodville at Minden.

- June 28: Minden at Haliburton.

- June 30: Haliburton at Minden.

- July 7: Bobcaygeon at Minden.

- July 14: Woodville at Minden.

- July 21: Kent Tavern at Minden.

July 28: Haliburton at Minden.

Be sure to get out to the park and see the Hustlers. There are some new faces in the line-up, Elmo Lymburner, Ron Lloyd, Alex Little and Jamie Dollo, and the team will be sporting new uniforms. The Hustlers will be in Lindsay Sunday and will host Lindsay Kent Tavern Thursday, June 9th.

Shoe tree gets the boot

The shoe tree is gone.

The silent sentinel of frivolity has been removed from the side of Highway 503 between Kinmount and Gooderham, and I for one, am going to miss it.

The tree had a brief but checkered history before it met its final demise last November.

Its origins are somewhat clouded in the mists of time, but Joe MacPherson, on whose property the tree stood until last year, thinks the shoe tree was about 12 years old. He bases the estimate on information gleaned from the late Bill Boland, a neighbour from the other side of the highway, who Joe describes as a great promoter of the tree.

(A slight digression might be in order here to explain, for the uninitiated, what this is all about. A shoe tree is a tree which has been decorated,

jack's world

by publisher Jack Brezina

adorned and, yes, some suggest desecrated, by individuals who have nailed or hung from the tree, all manner of footwear. The result is a tree covered with boots, shoes and the like from base to as high as the contributors dare reach. A shoe tree is not beautiful, but rather interesting or intriguing.)

Bill, who died two years ago, was a bit of story teller, according to Joe. He offered a historical origin for shoe trees (for there are others in the world, besides the one that used to stand at the side

of Highway 503), and a contemporary account of how the local tree came to be.

The story teller claimed that the origin of shoe trees dated back to the early history of this country, if not before the white man arrived on the scene. In a certain Indian village, two young men competed jealously, and often violently, for the attention of a young maiden. She became concerned for the well-being of the two suitors and decided to leave the village until, by whatever means, they decided who would have her as his wife. But how shall we find you out in the forest, they asked her before she left. Not realizing the long term impact of her words and actions, she told the young men she would indicate her location in the forest by hanging her moccasins from a tree. And the rest, as they say, is history.

Silver lamé sling-backs with stiletto heels

(from page 10)

The modern version of that tale, as related by Bill Boland, says that after the Kinmount Fall Fair, some 12 years ago, someone nailed a pair of sneakers to a tree along Highway 503 and, the rest as they say ...

The original 503 shoe tree was in fact located some distance west of the MacPherson property, and on the south side of the highway. The tree was on property owned by the Ministry of Transportation, and while they did not appear to be tickled to see the number of shoes on the tree grow at an exponential rate, they seemed to tolerate its existence.

Bill Boland, as Joe recalls, was a major promoter of the tree, drawing it to the attention of visitors to the area, and adding numerous pairs himself, scouring yard sales and auctions for forlorn footwear to join the growing number on the tree.

Not everyone liked the sight of the shoe tree. Some thought it was an eyesore and an abomination to nature. Complaints were lodged with the highway authority, but no action was taken. However, a number of years ago, Bill saw someone stripping the tree of all the shoes and bundling them into garbage bags. It appeared obvious the footwear was not being taken down to be re-soled.

Calling Joe, Bill explained the crisis, and in a bold move, the pair gathered up the bags and trucked them over to Joe's residence. Joe liked the idea of a 503 shoe tree, and didn't want to see the tradition die, so he offered a tree at the edge of his driveway. The new tree was located just inside his fence, placing it on private property and beyond the reach of highway officials or others. Bill and Joe took all the shoes salvaged from the former shoe tree, over 300, and carefully nailed, hung, or otherwise attached them to their new home.

And, what a collection they had. There was the usual selection of shoes - what we have learned to describe as "sensible shoes", no doubt in a variety of sensible colours, for both men and women. But there were also sneakers and running shoes; pumps and sandals; silver lame sling backs with stiletto heels and farmer's Wellingtons; work boots and ballet slippers; ice skates and roller skates; and yes, even a pair of moccasins. As Joe recalls, among the shoes they attached to the trees, one of the most

A fire scarred stump and a few charred shoes is all that remains of the 503 shoe tree.

intriguing was a tiny pair of doll's shoes, and these were placed as high in the branches as they could reach.

Generally, people seemed pleased that the 503 shoe tree had survived. One person commented how the footwear-bedecked tree was a sign post his family diligently watched for as they drove to their cottage, knowing when they saw it, their destination was not far off. Others added to the collection, nailing their contribution to the shoe-encrusted trunk, or flinging them up into the tree where the shoe laces would become entangled in the branches and hold the dangling tribute. Shoes would also be left at the base of the tree or hanging on a nearby

fence. Joe met a lot of people at the shoe tree and recalls that visitors from as far away as Australia and Germany dropped by to make a donation. The 503 shoe tree even attracted the attention of roving reporter Bill Bramah, who brought his television cameras to film a sequence for his Global Television Ontario Report. (Bill couldn't resist the temptation, and brought along a shoe to add to the collection.)

But all that notoriety and recognition is over now for the 503 shoe tree. The landmark has disappeared from the side of the road.

Joe was away from his residence early last November when someone splashed the tree with flammable liquid, likely gasoline, and set the shoes ablaze. "There wasn't one shoe left undamaged," he commented. "Most were destroyed. I don't know who did it, I just know it was a good thing that I wasn't here when they did it or they would have had me to deal with."

The Kinmount fire department was called to the scene, but by the time they arrived, there was nothing left to do but douse the remaining flames and leave the charred remains of the 503 shoe tree standing at the side of the road. When Joe returned home, he was dismayed to see the fire scarred tree. He just can't understand why someone would want to do this to a harmless bit of fun.

And neither can I. The 503 shoe tree represented, for me at least, a little bit of silliness in a world that, more often than not, takes itself too seriously. It provided an opportunity for people to be a part of a harmless prank, to enjoy a little frivolity without creating havoc or disrupting the lives of others. The 503 shoe tree was a slate on which people could make a statement, unconventional as it may be, that could be seen and enjoyed, not only by themselves, but by countless others too timid to participate, but willing to share in the joke. Obviously, someone thought it was inappropriate for people to laugh.

The tree is gone now. The fire-scarred trunk was cut down and removed. A few charred shoes remain at the stump. Joe MacPherson is considering erecting a plaque or memorial to mark the 503 shoe tree. He notes there are no other suitable trees on his property close to the road or he would consider starting another. For now, however, he is left to wonder, who erased the little bit of fun, that was the 503 shoe tree.

(P.S. I have it on good authority there may be a new shoe tree on the Salerno Lake Road, and perhaps, a tie tree. Imagine ... a tie tree.)

Batter Lyn Winans digs in while awaiting another fastball from West Guilford pitcher Melanie Duchene. This was the opening game for the Rockcliffe Snack Bar team's season and they went on to a 16-3 victory Monday in Minden. The Minden team has started the season well with three wins and one loss.

Minden ladies sport 3 - 1 record

Another season in the Haliburton County Ladies Softball league opened this past week with games being played on a number of diamonds throughout the Highlands.

In one of the opening games, the Rockcliffe Snack Bar scored 16 runs to beat West Guilford 16-3. Winning pitcher was Laura while Melanie took the loss. Both teams were treated to pizza, compliments of the Minden sponsor, following the game.

Thanks were expressed by players on both sides for the generosity and thoughtfulness.

On Thursday night, the two teams met again, this time in West Guilford. Although the game was a closer match, the Rockcliffe Snack Bar still came out on top 8-6.

The Haliburton team hosted Minden Monday night for their season opener, but lost to the visitors 11-6. On Tuesday night the tables were rever-

sed with the Haliburton squad coming up with a 20-6 trouncing of the Minden entry.

Looking ahead to next week: Rockcliffe Snack Bar plays in Haliburton Monday night. On Tuesday West Guilford plays at Minden while on Thursday Rockcliffe returns to West Guilford.

Come out and support your local teams. We think you'll be surprised to see the quality of baseball being offered this season.

Trent-Severn waterway report

The rain that was threatening navigation and lake levels last week ended Saturday, May 21. A few light amounts since have not resulted in any noticeable change so a decline of flows and levels has been underway all this week, with the Otonabee River getting back to the flow of Monday, May 16.

normal full levels on Tuesday, May 24 which was about 5 per cent greater than the 10-year average and 20 per cent greater than in 1987. With prevailing dry conditions in much of the continent, the likely scenario would be for a dry summer, and decline rates similar to 1987. Starting 20 per cent or so higher than last year should result in better conditions all summer on the Haliburton Lakes than were experienced then.

Kawartha Lakes still have a small surplus to be used first under evaporation conditions. This may begin in the next several days with the present weather forecast calling for mainly sunny skies with 27 degree C temperatures for the weekend.

Fishing licence fees help stocking program

(from page 6)

Resident fishing licences, valid throughout 1988, went on sale in December. They are available through the Ministry's network of private licence issuers and from the MNR district offices. The MNR district offices in Victoria - Haliburton are located at 322 Kent Street West in Lindsay and on Highway 35 in Minden.

Revenues from the sale of licences were used in a recent experiment to stock Atlantic salmon back into the Lake Ontario water shed. My colleague, the Honourable Vince Kerrio, Minister of Natural Resources, recently released salmon smolts into the Credit River at Cheltenham. It's all part of a 10-year experiment to try to re-establish a strain of this historic fish in Lake Ontario. About 30,000 smolts are being stocked this year and over the next five years, the Ministry will stock 50,000 Atlantic salmon a year.

Although CHACE Place's open house last Tuesday was a special day for parents and guests, it was business as usual for the kids as they played with all the toys and books at the resource centre.

Shown above, Shauna Ray passes a wand over the doll's head to make it magically come to life.

Above right, Debbie Ray was preparing a feast in the kitchen. She calls this gourmet special, "Doggie Soup".

Right, Vennessa Smith is delighted by the pictures as her mother reads one of the many books available at the centre.

CHACE open house

On May 31, CHACE Inc. was one of the 300 Resource Centres and Toy Libraries across Canada to

open its doors to the community in celebration of National Awareness Week of Resource Centres and Toy Libraries.

Awareness Week ran from May 30 to June 3 and

was sponsored by the Canadian Association of Toy Libraries and Parent Resource Centres, of which CHACE is a member.

As part of the promotion, the association sponsored a poster contest

and invited all children, members, volunteers and staff to take part. One of CHACE's many entries, drawn by Susan Cowen, received second prize. Cowen, one of CHACE's board members, receives a gift voucher from Parent-books, a well-known Toronto book store.

Both Minden CHACE Place and Haliburton CHACE Place took part in the open house last Tuesday from 11 a.m. to 2 p.m.

Objections likely to force OMB hearing over school

With close to 20 Minden residents filing formal objections to the rezoning of the former Dollo's IGA building, an Ontario Municipal Board hearing will likely be required.

As of Friday, the Anson, Hindon and Minden municipal office had received two petitions objecting to the rezoning bid and a third separate objection. Township clerk Mary Mysyk said that in all, there are about 20 names on the two petitions.

The property, which is now zoned Commercial, has been vacant since July 1986 when the IGA moved to its new location. The Haliburton County Board of Education now wants to use the refurbished building for classroom space, but it must first be rezoned to Institutional.

The education board says it needs the extra classroom space to ease the overcrowding now experienced at Archie Stouffer Elementary School. The Ministry of Education has refused to provide funding for either an addition or portable classrooms. Therefore, the board wants to lease the building on the south end of Bobcaygeon Road for a

few years until funding can be secured for an addition.

Anson, Hindon and Minden Townships Council gave its approval to the rezoning during a meeting on May 5. At that meeting, the main objections heard came from Joe Shapiera, who owns Jadek Sports. Shapiera has now filed a formal objection to the rezoning. In his letter, he sets out seven specific objections. The following are his reasons for requesting an appeal to the OMB:

1. The rezoning effectively eliminates the potential for Commercial activity on this vital commercial property. The downtown core, which has experienced steady erosion over the past ten years, does not have similar adequate property to replace the property re-designated.

2. Further, this re-designation is inconsistent with a Town Plan commensurate with the idea that there should be a vital downtown core. Presently, those operating businesses in this area are faced with the prospect of growing commercial activity on the King's Highway 35 "by-pass" which does

nothing to attract tourism into the town core, but merely facilitates a devious split of any commercial activity. Removing a substantial property from the downtown area furthers this lack of positive planning and direction from Town planners, and places a greater burden on downtown merchants to maintain the viability of their respective businesses.

3. The re-designation will result in a loss of the tax-revenue normally assessed and attributed to this property by the Townships, and as a school facility would be exempt from paying this tax. This tax loss will increase the tax burden of those individuals under the assessment auspices of the Townships.

4. Further, the actual building will require extensive renovations in order to have proper heating, ventilation, washroom, health and recreational facilities commensurate with an educational institution. Unless this cost can be recovered from the capital funds made available by the Provincial Government, this cost will have to be absorbed by the resident tax payers. If capital funds

from the Province are available they should be used toward renovation of the existing elementary school in Minden and not towards a temporary measure.

5. The area surrounding the re-zoned property would require supervision, said cost also falling on the resident tax payer.

6. The Township would require insurance on that property. Given the difficulty and expense being experienced by municipalities to find affordable coverage, the cost of this coverage would fall on the resident tax payer, if liability insurance could be negotiated at all. The potential legal liability of the Township should insurance not be available would be substantial, and further legal investigation is necessary to be properly aware of the ramifications

- Emmerson Rest All - wheeled Huss woodsplitter model 14120, with red Honda motor.
Hardwood Lake - 12' Springbok aluminum boat with brown vinyl seats.

Court date has been set for July 6 at Provincial Court Minden.

Caterpillars

Information has been received from the Ministry of Natural Resources, that the Forest Tent Caterpillars are coming to the end of the larva stage. With this comes the migration. The ministry warns that large numbers of caterpillars crossing the road, may cause very slippery and hazardous road conditions. Drivers are reminded to use caution over the next weeks, while this migration is in progress.

Truck purchased

Lutterworth Township will see a new Western Star truck working on its roads this winter.

At last Tuesday's meeting, council decided to

accept the tender of \$92,905 from Northland Truck Centre in Bracebridge to supply the vehicle.

Tenders were opened at a previous meeting, and this truck was slightly more expensive than the lowest tender. However, council felt there is a benefit to buying from a dealer that is near enough to service the vehicle. Councillors also sought and were given a very good recommendation on the truck from a local company which has one.

Charged with break and enter

While on patrol early in the morning of May 28 an officer and Auxillary Constable of the Minden Detachment observed an unidentified light at the office of Frontier Motors. A search of the building found Sean Peter Grozelle, age 19, of St. Germain St., Minden, inside, hiding in a closet. Grozelle was arrested and charged with Break and Enter with Intent.

Rezoning placed on hold

After hearing numerous concerns from area residents, Lutterworth Township Council decided to hold over its decision on a rezoning application by James Webster and Black Bear Estates.

The township council chambers were filled to capacity last Tuesday as residents came out to voice their concerns during the special meeting. Webster has applied to have his property, located on Moore Lake and East Moore Lake, rezoned to Shoreline Residential.

Council is expected to deal with the bylaw at the next regular meeting.

Willing to accept road

Lutterworth Township will be willing to assume responsibility for Gull Lake Road number 28, if it is brought up to Ministry of Transportation standards.

At last Tuesday's council meeting, the clerk was directed to forward a letter to the ministry, stating that the township is willing to take over the road if the ministry will provide full subsidies for maintenance.

John Browning and Kenneth MacDowell are planning a severance, creating five new lots on that road. The ministry recommended to them that they have the road upgraded and request the municipality to take it over.

Reg. 37.99

SPRED • House Paint Y-3600
A premium quality acrylic latex house paint recommended for all exterior surfaces including wood, masonry and primed metal. Substantially cuts painting time and features reduced brush "drag" making exterior painting less fatiguing. Dries quickly to reduce dirt and bug pick-up or rain damage while you paint. Forms a durable finish that hides surface defects, repels dirt and is highly resistant to blistering and peeling. Keeps its even, flat sheen and retains a freshly painted look for years. Available in winter, ready-mixed and tinted colors.

SALE PRICE \$29.98
4 l
Reg. 37.99

SPRED • Latex Gloss House & Trim Paint Y-3900 Line
A highly durable acrylic latex exterior enamel, with a rich, gloss look. Goes on with amazing ease and dries quickly. Ideal for exterior trim surfaces such as shutters, doors, windows, eaves, and trellises and porch ceilings. Available in white, black, ready mixed and tinted colors. Prime bare wood with Y-1951 Exterior Primacoat, designed for home-owners who prefer to emphasize architectural features with color. Exhibits excellent color retention. Will not chalk. Do not apply over chalking surfaces.

SALE PRICE \$29.98
4 l
Reg. 37.99

SPRED • GEL FLO • House & Trim Paint Y-1901
A high hiding alkyd house paint with a thick, gelled consistency that permits high brush loading. Features smooth-flowing application and excellent resistance to dripping and sagging. Dries to a rich, enamel-like gloss appearance that resists weathering and outlasts most conventional type oil paints. Available in white, ready-mixed and tinted colors and Y-1951 Primer. Retains color throughout the life of the paint.

for your service

by Lorna Hicks, Minden Lioness

Hello again from the ladies of the Minden Lioness Club. We wish to extend heartfelt thanks to all who have supported our endeavors during the past year. The funds raised by collecting cleaner's bills, draws, bus trip, yard sale, Ride for Sight food booth, bingo etc. were used both locally and outside the area. Donations were made to Haliburton Hospital Expansion Fund, Minden Hospital sign, afternoon tea and also Christmas goodies for residents of Hyland Crest Home, C.N.I.B. children's Christmas party, clothing for Christmas Hampers, memorial donations to Minden and Sunnybrook Hospitals, diabetes association, Cancer Society,

V.O.N., Red Cross, Haliburton District Mentally Retarded, area fire victims, Ride for Sight Retinitis Pigmentosa, Camp Kirk, and the computer programme at Oshawa School for the deaf (our District project). We collected eyeglasses for Lions and labels for Minor Hockey and Figure Skating. Assistance was also given to H.H.S.S. Stage Band Trip.

To help us grow as a club, at member's own expense, some of us attended an officer's training school at Claremont and other functions and meetings in Bobcaygeon, Pefferlaw, Omemee, Unionville, Minden and Whitby. To raise the separate funds for administration, in addition to

finances and dues, we held mini-draws at meetings, served Lions dinners, sold club pins at Lioness functions.

The new executive for 1988-1989 Season is President - Lioness Joyce Wright, Vice-Presidents Lionesses Ena Marion and Lorna Hicks, Secretary - Lioness Bobbie Flood, Treasurer - Lioness Ruth Rice, Lioness Tamer & Tailtwister - Lioness Muriel Harrington and

directors Lionesses Jean Lacey, Mary Beaver, Olive Hamilton and Dorothy Boyd. Anyone interested in the Lioness Club please contact the President, the next meeting is September. Over the summer we will be collecting labels as part of FundRise. Watch for more information.

Support the Lioness and Ride for Sight June 11-12 at the food booth.

we love our children

IF YOU'RE A SENIOR
or know someone who is,
this is the guide to
government services
you've been waiting for.

The publication is called
"Seniors' Guide to Federal
Programs and
Services", and
it provides basic
information
about federal
benefits and
services available
to seniors. The
Government of
Canada has literally
dozens of programs
created specifically
for senior citizens —
programs that cover
a wide range of activi-
ties and requirements.
Every effort was made to

ensure that all programs
were included.
Watch for the Guide
during the month of
June at Infocentres
in selected super-
markets across
Canada. It will be
available along with
other publications
that you will find
useful. Or, you
may obtain a
copy of the
Guide, free of

voices of hhss

by Katy Beach, Dianne Garbutt
and Heather Donaldson

Hi there. Well with less than 10 real days left of school, tension is mounting. Teachers are cramming instead of students for once. Their curriculums must be finished, and they are rushing to complete the term. Lockers are just about their peak capacity, and brains are all worked out.

In sports, 6 students from our school qualified for All Ontario (OFSAA) competition in track & field. All other team sports are finished, and the final athletic wrap up of the year will be the athletic banquet on June 6. Athletes of the Year as well as other

awards will be given that night.

The grade 13 English class (most of whom were in the drama club) put on a dramatic play called "Blood Relations" last Thursday, and displayed a commanding hold of their parts. It was enjoyed by all. The main characters were played by: Lori-Anne Duguay, Gina Brohm, Richard Beers, Kathleen Clarke, Tricia Atkinson, Gord Wood, Andrew Milne, Mike Blake, and backstage people: Ruth Stouffer, Lynn Bibby, Laura Cross. Well done.

This is also a time of year when all overdue or coming due library books should be hunted-up or dug out of the dark

recesses of the locker. Major penalties will befall those who fail to return or pay replacement costs of the books.

The last day of school is June 15, with dreaded exams beginning on the 16th. Good luck to everyone writing exams.

Presently, we (Katy, Heather and Dianne) are working up our pens for the end of the year wrap-up - this will probably be in the paper on the 15th or 22nd of June, depending on how much happens between the 8th and 15th of June.

Until next week, may the teachers be easy on you, and may you have a great last two weeks.

School objections

(from page 15)

such an acceptance of this liability will have on the resident tax payer.

7. The safety of the children attending must also be considered at greater length. Commercial traffic is substantially different than that

normally associated with residential areas where schools are normally located. The potential for injury of the children so attending is a real possibility given the present state of downtown traffic. Further study on ways to eliminate, if at all possible, this potential threat is necessary.

TENDER FOR NEW HEAT RECLAIM UNIT ARENA LIGHTING AND LOW EMISSION CEILING MINDEN COMMUNITY CENTRE TOWNSHIPS OF ANSON, HINDON AND MINDEN

SEALED TENDERS from Mechanical/General Contractors will be received at the Office of the Consultants in Whitby until:

2:00 P.M., LOCAL TIME, TUESDAY, JUNE 14th, 1988

The work consists of the installation of a heat recovery unit in the arena's brine chilling system, the installation of new HPS lighting in the arena and a new low emission ceiling in the arena.

Tender submissions shall be accompanied by a certified cheque in the amount indicated in the Documents, payable to the Townships of Anson, Hindon and Minden.

Copies of the Tender Documents are available from the Office of the Consultant.

Drawings will be on display at the Orillia, Peterborough and Toronto Construction Exchanges.

The Townships of Anson, Hindon and Minden reserves the right to reject any or all tenders.

The end of the caterpillar is not far off - it's just a matter of time

(from page 1)

Lack of food and increase in predators will take their toll

ulations build and build until a sufficient number of the insect's natural enemies appear, causing the populations to plummet.

This is the fourth consecutive year of expanding populations in Ontario. In 1987, 1.65 million hectares of forest land was affected and last year's predictions of more growth have proven correct. While it is possible

that this is the final year, Clements says infestation could continue for another two years before dropping off.

The Forest Insect and Disease Survey Unit at the Canadian Forestry Service's centre in Sault Ste. Marie maps the size and severity of these outbreaks. By determining the number of overwintering

egg masses on the host trees, it forecasts the spread of these infestations. Until the moths lay their eggs later this summer, there is no way of predicting what might happen next year.

Like most naturally occurring pests, the forest tent caterpillar has a complete set of natural control agents which

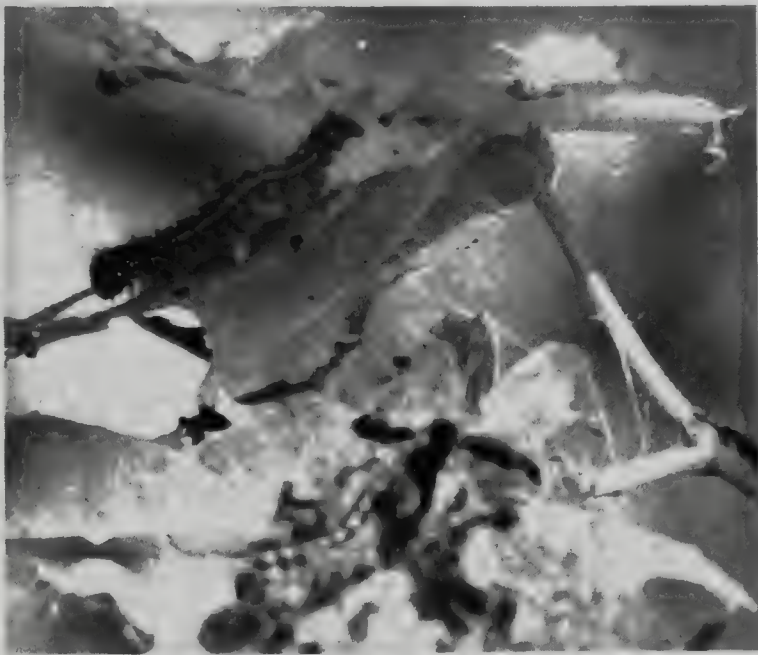

ultimately bring the infestation to an end. During major outbreaks, an infestation tends to collapse in the third or fourth year, brought about by overpopulation.

The tell-tale signs of an end to the infestation will be the presence of starved, decaying caterpillars, the total removal of foliage from trees while the

caterpillars are still young and the abundance of a parasitic fly.

Until this time arrives, though, there is little that can be done. Insecticides are not as effective against the full-grown caterpillars and control action at this point is difficult if not futile.

According to the ministry, the best advice is to gather as many caterpillars as possible where they are concentrated and destroy them.

Having cleared their original host trees of leaves, Forest Tent Caterpillars have been migrating over the past week in search of greener pastures in new trees. The migration of these voracious little insects has covered area roadways and caused the OPP to issue a warning that road conditions may be slippery. As the sign at the corner of Highway 121 and County Road One shows, some people are a step ahead of the police in posting a warning.

According to the Ministry of Natural Resources, the caterpillars are more of a nuisance than a threat to trees. Healthy trees will grow new leaves within five or six weeks.

THE LIQUOR LICENCE ACT

Opponents lack the facts

by Bill Scott, M.P.

The Canada - United States Free Trade Agreement (FTA) becomes domestic law through the passing of The Canada-United States Free Trade Implementation Act. This Bill will

complete months of debate, speculation and anticipation regarding the matter of Free Trade.

Much of the activity surrounding the FTA has been based on myth and conjecture rather than on fact and reality. Opponents to Free Trade have

often spoken out against the Agreement without being aware of the facts. They choose to ignore the reality of Free Trade's positive impact upon all regions of Canada, particularly Ontario.

The Implementation Act approves the provisions of the Agreement and amends existing domestic legislation, such as our tariff laws, where necessary. The Free Trade Bill is but one of many pieces of legislation this government has brought forth since 1984. As part of the government's legislative agenda, the Implementation Act plays a key role alongside the Meech Lake Accord, Tax Reform, National Policy on Child Care, the Atlantic Canada Opportunities Agency, FedNor (economic development for Northern Ontario), the Western Economic Diversification Initiative and the White paper on Defence. The Bill does not compromise Canada's sovereignty or our ability to develop policies best for Canad-

ians. It is an integral part of the initiatives this government has put forth in strengthening the Canadian economy and ensuring that Canadians enter the 21st Century on the basis of economic security and strength.

The Implementation Act is comprised of five parts and covers all legislative changes required to bring into effect the Free Trade Agreement signed by Prime Minister Mulroney and President Reagan on January 2.

The Ontario economy depends on trade. Fully 27% of the goods we manufacture are exported, and 90% of that total goes to markets in the United States. Exports are worth \$60 billion a year to the Ontario economy. Major Ontario exports include cars, trucks and auto parts, machinery, aircraft parts, office machines and equipment, precious metals, steel, forest products, telecommunications equipment and services such as banking and insurance.

(more on page 21)

Help available for OHIP costs

by Doreen Hawman

If you are experiencing financial difficulties at the moment and are concerned about paying the premiums for your Ontario Health Insurance coverage, there could be help for you.

The Ontario Health insurance plan has two assistance programs to help maintain coverage when individuals are having financial problems. You can apply for either Premium Assistance, an annual program or Temporary Assistance, a short-term program.

Eligibility for Premium Assistance is based on your total estimated family income for the current year before deductions. Eligibility for Temporary Assistance is based on your family's total monthly income before deductions; liquid assets such as personal savings are taken

into consideration.

Applications and instruction booklets are available by contacting your nearest information centre. In Haliburton the centre is located in the Drag River Municipal Building. It is open Monday to Friday 10 a.m. to 4 p.m.

For residents of the Minden area, the centre situated in the Municipal Building, is open every Tuesday from 10 a.m. to 4 p.m.

PLAY IT SAFE!

Water and alcohol don't mix. Not when you're swimming in one of them.

REQUEST FOR PROPOSALS DESIGN CONSULTANT/PROJECT CO-ORDINATOR FOR TOURISM AND HOSPITALITY ADMINISTRATION CENTRE

Fleming College is expanding its' centre for Tourism and Hospitality Education. In conjunction with this project, the College is seeking a Consultant/Project Co-ordinator to assist in the design and equipment selection for the teaching/service areas. The project is comprised of a Dining Room/Bar, an Instruction/Production Kitchen and a Tourism - Travel Instructional area to meet industrial standards.

Interested Consultants for the Tourism and Hospitality Centre are invited to a general meeting on Tuesday, June 7th, 10:00 a.m., Boardroom No. 515 at Brealey Building, Sutherland Campus, Peterborough, Ontario.

Proposals to be submitted by Wednesday, June 15th, 1988 to:

Sir Sandford Fleming College
Purchasing Office
526 McDonnell St.
Peterborough, Ontario
K9J 7B1

The Lowest or Any Proposal Not Necessarily Accepted.

For Further information, please contact: Mrs. Sandy Lawrence, Purchasing Officer, (705) 743-5620 or Derek Scott, Dean, School of Business (705) 743-5610.

Bill Scott

(from page 20)

Ontario exports over \$30 billion a year in cars, trucks and auto parts. Under the FTA, the safeguards of the Auto Pact that have made the automotive industry Ontario's most important export business remain secure and intact. In fact, new, tougher North American content requirements will encourage vehicle assemblers from Europe and Asia to purchase more parts from Ontario manufacturers.

The gradual elimination of tariffs on both sides of the border, under the FTA will allow manufacturers from steel to textiles to take advantage of lower costs, higher productivity and secure access to a rich market of over 230 million consumers, including a \$4 billion US government procurement market.

Ontario agricultural exports to the U.S. amount to over \$3 billion per year. This province is Canada's largest producer of livestock, horticultural products and processed foods. Supply management marketing boards for dairy products, poultry and eggs remain intact. Fruit and vegetable producers will be protected for 20 years by tariff measures that can be invoked when prices are low. Poultry and dairy products will be added to our Import control list as circumstances require.

Throughout negotiations the government promised to take the interests of Canada's fruit and vegetable are the only industrial or agricultural product granted this special "snap-back" provision.

Some adjustment will be necessary for the wine and

grape growers of the province. It is important to point out the root of the industry's concerns lies not only in Free Trade but also in the ruling of the General Agreement on Tariffs and Trade (GATT). The GATT panel report upheld a charge by the European Community that discriminatory pricing of Canadian wine was unfair. Therefore with or without the FTA, the industry would be required to adjust. The Federal government, with the industries and the provinces, has begun the process of assessing the impact on the sector and development an appropriate adjustment package.

Financial institutions can look forward to greater access to the U.S. market. Our professional services sector - architects, engineers, scientists and management consultants - will gain access to the huge U.S. market to service a larger customer base.

The Dispute Settlement Mechanism will discourage the Americans from applying their trade remedy laws. Consumer prices will fall as tariffs decline. Higher economic growth will allow governments to continue to promote cultural, regional and social development.

The Free Trade Agreement with the United States will make Canada more competitive in the international environment and it will ensure a more predictable and prosperous future for all Canadians. The implementing legislation brings this Agreement into effect.

CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN

NOTICE

(File No. RA-87-17)

IN THE MATTER OF the Municipal Act; and
IN THE MATTER OF a proposed By-law of
the Corporation of the Townships of Anson,
Hindon and Minden to stop up, close and
convey to the adjoining landowners portions
of the original allowance for road along the
shore of Twelve Mile Lake, lying in front of Lot
10, Concession 9, in the Township of Minden.

NOTICE IS HEREBY GIVEN pursuant to
Section 301 (1) (a) of the Municipal Act, R.S.O.
1980, as amended, that the Council of the
Corporation of the Townships of Anson,
Hindon and Minden proposes to consider and,
if deemed advisable, to pass at its regular
meeting to be held in the Municipal Council
Chambers on Milne Street, Minden, Ontario,
on Thursday, July 14th, 1988, at the hour of
10:00 a.m., a By-law to stop up, close and
convey those parcels of land more particularly
described as follows: -

Part of the original allowance for road along
the shore of Twelve Mile Lake in front of Lot
10, Concession 9, in the Township of Minden,
in the County of Haliburton, designated as
Parts 1 and 2 on a Preliminary Plan of Survey
by Dearden, Stanton, Stones and Strongman
Ltd., Ontario Land Surveyors, dated January
19, 1988.

The plan of survey is available for inspection
in the Municipal Office, Minden, Ontario,
during regular office hours.

AND FURTHER TAKE NOTICE that before
passing the said By-law at the meeting to be
held at the time and place above-mentioned,
the Council shall then and there hear in person
or by his or her counsel, solicitor or agent, any
person who claims that his or her land will be
prejudicially affected by the said By-law and
who applies to be heard.

DATED at the Township of Minden this 1st
day of June, 1988.

CORPORATION OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN

NOTICE

(File No. RA-88-03)

IN THE MATTER OF the Municipal Act; and
IN THE MATTER OF a proposed By-law of
the Corporation of the Townships of Anson,
Hindon and Minden to stop up, close and
convey to the adjoining landowners portions
of the original allowance for road along the
shore of Kashagawigamog Lake, lying in front
of Lot 28, Concession 7, in the Township of
Minden.

NOTICE IS HEREBY GIVEN pursuant to
Section 301 (1) (a) of the Municipal Act, R.S.O.
1980, as amended, that the Council of the
Corporation of the Townships of Anson,
Hindon and Minden proposes to consider and,
if deemed advisable, to pass at its regular
meeting to be held in the Municipal Council
Chambers on Milne Street, Minden, Ontario,
on Thursday, July 14th, 1988, at the hour of
10:00 a.m., a By-law to stop up, close and
convey those parcels of land more particularly
described as follows: -

Part of the original allowance for road along
the shore of Kashagawigamog Lake in front of
Lot 28, Concession 7, in the Township of
Minden, in the County of Haliburton,
designated as Part 1 on a Preliminary Plan of
Survey by Dearden, Stanton, Stones and
Strongman Ltd., Ontario Land Surveyors,
dated October 15, 1987.

The plan of survey is available for inspection
in the Municipal Office, Minden, Ontario,
during regular office hours.

AND FURTHER TAKE NOTICE that before
passing the said By-law at the meeting to be
held at the time and place above-mentioned,
the Council shall then and there hear in person
or by his or her counsel, solicitor or agent, any
person who claims that his or her land will be
prejudicially affected by the said By-law and
who applies to be heard.

DATED at the Township of Minden this 1st
day of June, 1988.

(Mrs.) Mary Mysyk, A.M.C.T.,
Clerk-Treasurer,
P.O. Box 98,
Minden, Ontario,

TENDER FOR METAL CLADDING AND BUILT-UP BITUMINOUS ROOFING MINDEN COMMUNITY CENTRE TOWNSHIPS OF ANSON, HINDON AND MINDEN

SEALED TENDERS from General
Contractors will be received at the Office of
the Consultants in Whitby until:

2:00 p.m., LOCAL TIME, TUESDAY, JUNE 14th, 1988

The work consists of the installation of new
insulated metal cladding to the exterior walls
of the Community Centre, and the removal and
replacement of the existing built-up
bituminous roof system. An alternate price for
a new metal deck roof system is also requested
in the Tender.

Tender submissions shall be accompanied by
a certified cheque in the amount indicated in
the Documents, payable to the Townships of
Anson, Hindon and Minden.

Copies of the Tender Documents are available
from the Office of the Consultant.

Drawings will be on display at the Orillia,
Peterborough and Toronto Construction
Exchanges.

The Townships of Anson, Hindon and Minden
reserves the right to reject any or all tenders.

Fisheries enhanced by MNR programs

Minden District Spring and Summer Fisheries Programs are now into full swing. According to Wayne Wilson, District Biologist, this upcoming field season is going to be extremely active with the following programs being carried out:

- Stocking by truck and helicopter of 91 lakes and rivers with 200,000 Lake Trout, Brook Trout, Rainbow Trout and Splake. Fish stocking lists will be available in the near future.

- Assessing the status and spawning shoal condi-

tions in 10 Walleye Lakes.

- Assessing the trout stocking success in numerous lakes.

- Completing stream surveys on five District Brook Trout Streams.

- Improving lake trout spawning shoals by adding additional rubble to shoals on Maple, Beech and Davis Lakes to increase natural reproduction.

- Creel surveys are being carried out on MacDonald, Clean, Little Clean, Eyre, Gull, Horseshoe and Mountain Lakes. These creel surveys are important as the information

collected is used to assist in making future fisheries management decisions. If you are contacted by our creel surveyor your co-operation would be appreciated.

In addition to these projects a Community Fisheries Involvement project will be carried out in cooperation with concerned anglers on Redstone Lake. This will involve the improvement of Lake Trout spawning shoals on Big Redstone Lake, through the removal of silt from the shoal and the addition of clean rock rubble.

Guild plans annual meeting

by Joan M. Hoad

Calling all members, calling all members! Make a note to attend our Annual Meeting, 7:30 p.m., Wednesday, June 8, at the Curling Club when the Guild of Fine Arts will elect its new Board of Directors.

As Past President, I had the job of helping to prepare the new slate of officers and together with Marie Wallace, am really proud of the members who have agreed to represent you. They have all proven themselves as people with a lot to share with their fellow citizens and we are most appreciative of their willingness to continue to serve the Community once again, for the benefit of us all. The slate of officers for election will be: - Barb Bolin, Barb Dawson, Jean Farrell, Joel Levis, Claire MacLeod, Margit Moraal, Elva Robinson, Marilyn Stouffer and Marie

Wallace (As you know, half of the Board completes their two-year term each year). I very much regret that I will not be able to work with these talented people this coming year, but after four busy years I am stepping down for a rest and other commitments.

We would all like to say

a big thank you to Mimi Carson who is also taking a break from some of her constant contributions to Guild endeavours and to Vivienne Hill, who although newly settled up here, plunged right in to share her tremendous organising skills with the Guild this

Canada Post Corporation

Keeping our commitment in rural Canada

Canada's rural communities are vital to Canada Post. In fact, one of the most important parts of our commitment is making postal products and services more accessible to rural Canadians. To help us do this, we plan to use the resources and the expertise of the private sector. Where practical, we are approaching local business people in communities across the country offering them the opportunity to provide you with postal products and services through their businesses. As a result, you will be able to buy postal products or services in attractive locations at convenient hours, often including evenings and weekends.

*Change: the more you understand,
the more you'll agree*

Certain groups see our changes as an erosion of postal services in rural communities such as yours. Nothing could be further from the truth. By allowing local merchants to operate retail postal outlets, postal services as a whole will be more accessible – and more efficient – than ever before. In the long run it will help us keep postal rates reasonable and leave the way clear for Canada Post to preserve their presence in rural Canada.

Simply stated, by using retail merchants to sell stamps and other postal products and services, Canada Post can concentrate on what it does best: picking-up, processing and delivering the mail in a cost-effective way that benefits all Canadians, rural and urban alike.

Real benefits for everyone

– Nothing to lose –

Consultation For a start, we will engage in at least a 90-day consultation period involving all of our customers in your community, including your municipal authorities.

Jobs Changes are being made when natural opportunities occur, such as when a postmaster resigns, retires or is promoted. No postmaster has lost a job as a result of this program.

Identity The postal identity and name of your community will be preserved intact on signage and for addressing purposes.

Security Retail outlets will be bound by contract to maintain the same security and sanctity of mail standards as Canada Post.

Commitment, service More and more, retail postal outlets will be operated by local business people who already have strong roots in your community and share with you the same interest in maintaining high postal standards, and where possible, improving them. Local delivery service will be maintained.

– Everything to gain –

More outlets The objective is to increase the number of rural locations where you can access postal products or services from 5,000 to 7,000 and nationally by a third to 18,000.

More convenience Retail postal outlets will be conveniently located in a business close to other services in your community. Longer business hours will give you even more flexibility.

More business for local merchants Opportunities for local merchants to provide postal products or services will strengthen the community's business base.

More efficient service By utilizing local merchants' retail experience, Canada Post will be able to concentrate on reliable pick-up, processing and delivery of mail to Canadians.

*Canada Post is in rural Canada to stay.
That's a promise.*

CANADA POST CORPORATION
Our commitment: better service for you.

Gallery has affiliation

by Aileen Blears

Did you know?

- that the Agnes Jamieson Gallery is an affiliate member of the Ontario Association of Art Galleries.

- that, as a member of the Agnes Jamieson Gallery, you need only to show your membership card for free admission to the Art Gallery of Ontario, and any other public gallery in Ontario.

- that two beautiful pieces of sculpture by George Pratt are on display in the gallery. These were a gift from this

famous Canadian sculptor. Mr. Pratt grew up in the Minden area. He now resides in Vancouver.

- that a number of paintings by Dr. Agnes Jamieson are on display on a rotating basis. It was largely through the effort of Dr. Jamieson that the gallery became a reality.

- that a beautifully-crafted Deacon's Bench is being raffled by the gallery. Tickets may be purchased at the gallery, or from board members.

- that acrylic showcase-cubes, set on bases made by John Sagal, are now in use. These are imperative

to focal-point display, and enhance whatever they contain.

- that currently the gallery is presenting a family two-some. Susan Sydney and her mother, Inge Cadotte. They have combined their talents to present a multi-media show. Included are pencil, poster, watercolour, crayon and pen and ink. This show will continue until June 18.

- that Joan and Peter Hoad will present Watercolours and Sculptures beginning June 25, and continuing until July 9.

Now you know!

Guild year ends

(from page 22)

last two years. Of course we all benefited too from Ted Carson and Keith Hill's assistance, many many times. Thanks to everyone for a job well done. So, members, come out on Wednesday, June 8th, 7:30 p.m. to the Curling Club, and elect your new Board, enjoy refreshments and catch up on all the news! We need you.

What a wonderful evening thirty-six of us shared at the Rails' End Gallery on Friday, May 27. William Laskin demonstrated some of his skills in handmaking guitars and proved himself a most entertaining and delightful speaker musician. While visiting at the Gallery you could take a look at William Laskin's coffee-table book, a super gift for family or friends.

Lucky Sharon Gilligan! She had the Guild Choir under the baton of Marilyn Stouffer, sing at her wedding in Minden, last Sunday. We are justly proud of the Guild Choir and will all have the opportunity to hear them again on Sunday, June 12, at 2:00 p.m. in Head Lake Park, Haliburton. A date to remember!

As you know by now, our Summer Sale will start on Friday, July 8 this year. Do phone in to Cecile McLeod (457-1495) or Claire MacLeod (286-1696) to offer your services and choose your dates. We all know summer is close when we sign on for the Summer Sale!

Guild Groups are winding up their year's activities. Knitters meet on Tuesday, June 7 at Cecile McLeod's; the following Tuesday (14th) they will celebrate the end of a

productive year with a luncheon at Sir Sam's, 12 noon. (Phone Eleanor Holmes if not listed for this).

Weavers are preparing for Pot Luck at Pat Campbell's (Monday, June 13) after a busy year with the "100 inch loom".

June Beeney reports that the Country Ribbers Pot Luck Dinner will be at Carol Madill's, Sunday, June 12. More on the Country Ribbers, next week.

Much appreciation is extended to our Guild members who volunteered to help out on two recent Fund Raising ventures. The Home Show and the Flea Market. Many thanks too, for the abundance of 'treasures' donated for the Flea Market. We will repeat this idea as we have 'treasures' left over! Watch out for dates.

It was with great pleasure that we attended the opening reception of 'The Mad Hatters Tea

Party', Sunday, June 4, at the Rails' End Gallery. This Show was entirely guest-curated by the students of the Senior art class, Haliburton Highlands Secondary School. Guidance was from Dave Stephenson, art teacher and Elene J. Freer, Curator, Rails' End Gallery. The exhibition features functional, decorative and whimsical teapots. Local potters, Jeanette Edwardes, Rickie Woods, and Barbara Joy Peel are well represented and two out-of-towners: Andrea Pillar (Toronto) and Robert Tetu (eaforth). This was an excellent opportunity for the students to work behind the scenes at an Art Gallery as part of their Art Programme. Congratulations to the students and hats off to Elene and Dave for the idea.

Seniors Teas continue at the Gallery, June 7th, a great way to spend an afternoon.

senior league

by Pearl Lyle

Hi Readers!

Glad to say it is not so hot today.

Our week started as usual with chapel service Sunday evening by Rev. J. Burgess and on Tuesday morning with Rev. J. Fast of Minden Gospel Church.

The afternoon tea on Thursday was brought in by the ladies from Lutterworth Estates. It was lovely and everyone enjoyed it.

On Monday my sister

Cora Upton from Bracebridge and her daughter Dorothy Bethune of Utterson came for a short visit. Alice Todd attended a reunion of the Deacon Family at Belroves where they were celebrating a double birthday, with a beautiful cake and all the goodies. All reported a good time. Mrs. Dora Dawson of Peterborough and Mrs. Alice Morrison of Minden visited some folks here last week. Mable

Buttery told us her brother Walter Ackerblade was in to see her and took her out for lunch. We welcome a new resident Mrs. Annie Jones from West Guilford. We hope she will like it here.

Sorry to report more illness. Mrs. Shuyler is in Lindsay Hospital, Jim Simpson and Harry Foy are in Minden Hospital. We wish them all a speedy recovery. It's nice to have Doris back after her bout with the flu. She took a bus load yesterday for a three hour drive which was much enjoyed.

Movies Monday night were "Canadian Reindeer" and "Jack Rabbit".

The June birthday folks

at Hyland Crest are Winnie Barnum, Vera Harrison, Emma Stutt, Lola Prentice, Ada Lewis and Ina McGuire. "With joy upon your birthdays count your age by friends not years."

Au revoir.

PLAY IT SAFE!

Ensure your children understand and observe all warning signs at beaches, lakes and pools.

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off the list.

It's as easy as that. Have fun!

Persons recently with birthdays have been Jean Marsh, Irene Moore, and sorry missed Emma Stuff at Hyland Crest on June 2 and now on June 6 is Winnifred Barnum, Lola Prentice, June 11, with good wishes to all.

Michael Graham of Huntsville, who is home for the summer from Queen's University, spent a few days with his grandmother Vivian Kernohan.

At the Tuesday evening Euchres at Gelert Centre winners were - lone hands - Isobel Saunders, and others Ruth Kellett, Annie Schroder, Ralph Schroder and Bruce O'Brien. This is their final night of cards until September and they thank everyone who came out to these.

A note about Yvonne Guida, we wondered if people knew that she is an alumnus of Stanford Collegiate at Niagara Falls who were on the band exchange last week and was in charge of all the stage sets. Just another of her talents.

Florence Robinson was away several days visiting with her sister Grace and husband Ern Voycey at their summer home at Red Stone.

Some 35 people, who are taking a Highland Heritage Course through the Wildwood Outdoor Centre at Camp Gay Venture, were on a Heritage Tour and this included a visit at Minden Museum and they picked up copies of Glimpses of Our Past and enjoyed the content of this special printing.

Mrs. Clark Miller of Midland has been visiting her sister Audrey and husband Bob Vick for a short time.

Bradley Robinson is once again in England visiting some friends over there.

Copies of Glimpses of Our Past will be available at Minden Library and Museum at minor cost and your museum is open June 11, 18 and 25 from 10-4:30 with an interesting display and many excellent photographs. It will be open Monday through Saturday from 10 - 4:30 during July and August.

Best wishes go to Bill Robinson, Irene Houghton and Mrs. Fred Walker who are under the weather. I would be pleased to hear of others if you call Wednesday evening.

Sincere sympathy goes to the families and friends of the late Mrs. Eldridge Bull, John Ferriman, Walter Duffy and Mr. Peterson who passed away since last week.

Minden Agricultural Society (sponsors of the Haliburton County Fair) meet Tuesday, June 14th at 7:30 at the fairgrounds, with everybody welcome. The fair books are now available at McMahon's Feed 'n Harness and The Times.

The Minden and District Horticultural Society meeting is Tuesday, June 7 at the Council Chambers at 7:30 with guest speaker, Mrs. Anne Jenkins of Lakefield with "A Walk in the Woods". There will be competitions on an article using rhubarb and everyone is welcome.

If you think you have an invasion, just wait till the weekend of the 11th when the Ride for Sight bikers arrive. Hopefully the caterpillars may be done by then.

One of my friends said she swept up a thousand

caterpillars and then a million came to their funeral. This sounds about right.

May had something special - two full moons, May 1st and 31st. Guess you call that a "Blue Moon".

I was away enjoying a visit over the weekend with the Glen Sears of Oshawa and also at the Rick Moths at Toronto.

There was a birthday party for Irene Moore at Brydson's cottage on Buckslide Road on May 28; present were Garnet and Jeffrey Moore, Bramalea, the Earl Bird family, the Brydson family and Bill and Irene Moore with fireworks ending a wonderful evening.

Dorothy and Lauri McCallum and Marjorie Dawkins all of Lindsay visited Irene Moore one afternoon recently.

Mr. and Mrs. Bert Chamberlain of Scarborough visited with Audrey's sister, Irene Moore, May 31 on her 70th birthday.

Winners at Club 35 card party on Monday evening included, for most lone hands - Jean Randall while Virna Sawyer and Ken Taylor were high lady and man. The door prize went to Rhonda Woolner and others were Lou Penick, Eleanor Kleinschmidt and Mary Schad. The group also celebrated the birthday of their president Murray Daniels, with a lovely birthday cake. Our good wishes for many happy returns, Murray.

Prepare for home tours

prepared by the
Haliburton District
Real Estate Board

(continued from last week)

Successfully selling your property is a very complex process. Strictly speaking all that you want is for a buyer to submit an offer for the price you want ... simple? Not really. There are a myriad of factors that affect success. Right from the very beginning, everything must be 'right'.

4. The Property Owner's Responsibility: A successful sale is affected by the appearance of the grounds

and the tidiness of the house. Pets are a detriment for viewing, can you make them less visible while the property is being shown? Are you cooperating the best you can when you have short notice - this is one of the most annoying things about having your place for sale while you are occupying it. Salespeople try their best to comply to your wishes but often-times, it is those 'short notice' buyers who are just the ones! However, discuss how your property

"WHERE THE ACTION IS"

HOSPITALITY PAYS
BE A TOURISM
AMBASSADOR

Control your pets when buyers call

(from page 27)

is to be shown and let your listing salesperson know about such things as pets (especially the temperament of same!), illness in the home, if you will be away (what if they have an offer?), grass that needs cutting, snow removal, etc. Your salesperson will do everything in their power to assist you to keep your property "showing to perfection".

5. The Realtor's Responsibility: To represent your property accurately, responsibly, and with integrity. To advertise when and where appropriate.

To present all offers (not just the 'good' ones - by law

they must present each and every offer a willing buyer gives to a willing seller). To advise you on their opinion of all the factors considering an offer (who, why, when and how). To disclose any information that impacts your property and in particular affects the price you realize on your property. No secret profits - your Realtor must not receive any benefit from the sale of the property unless it is known to you (i.e. commission). This topic is very important but far too extensive to deal with here. There are other responsibilities too, but the bottom line is that all real estate salespeople are "working for the vendor". They are governed by laws that are

specific to the vendor's best interests.

'First offer is best offer'

6. The Offer. Now we're talking! Is it acceptable - the price, the conditions, the closing date? Is it the first offer? Are you likely to get more than one offer? (There is a saying in real

estate that the "first offer is the best offer" ... a good topic for discussion with your friendly real estate practitioner!) Let's just say that we now have an offer that is acceptable to you. Is this a successful sale now? Not necessarily.

A successful sale is one that closes. Ever been

involved in one that didn't close? Many things can and do happen in the process that lead to an unsuccessful sale. The buyers change their minds. The lawyers find some

detail in title searing that is insurmountable, or undesirable, etc ...

So let's revise the statement: A successful sale occurs when you receive the money.

CARD OF THANKS

The Minden Agricultural Society, sponsors of the Haliburton County Fair, would like to thank you for making our Annual Beef Barbecue and dance such a great success. 6A

I wish to express my sincere thanks to Dr. Sims, the nurses and staff of Minden Hospital for their care and kind consideration during my stay in the hospital. Also to the ambulance attendants who took me to Minden and to Peterborough. Special thanks to nurse Sheila Mitchell who accompanied me in the ambulance to Peterborough.

Louise Watson

The Archie Stouffer Home & School Association would like to thank all who helped make our 4th Annual Fun Fair such a huge success: Kawartha Dairy, Minden I.D.A., St. Paul's Church, The Times, Rotary Club, Lions, CIBC, Hyland Crest, Minden HomeAll, Anson, Hindon and Minden, Irma Armstrong, Marianne Wilson and Bob Wells. Special thanks to McKay Brydon, parents and students who volunteered their time, sent baking and sale table items, to the teachers who made our first Teacher's Auction such a success. Special thanks also to all the parents and children who came out to enjoy the Fun Fair. 6A

For the past eight weeks, interested twelve and thirteen year-olds have participated in a Babysitters' Training Course. Prepared by the Canada Safety Council, and sponsored by CHACE, we are grateful for the volunteers who taught the course: Marg Graham, Caroline Bishop, Stephen Dawson, Dwight Thomas, Don Booth, Faith Aggett, and Linda Elliott. 6A

AT REST

BULL

Dorothy

- at Minden Hospital on Tuesday, May 31, 1988 in her 75th year. Beloved wife of the late Eldridge. Dear mother of Philip and Gayle of Brentwood, Isabel and Charlie of Brampton, Gerald and Carol of Minden, Neil and Doreen of Minden, Eileen and Fred of Irondale, Marjorie and Dave of Minden and Leigh and Shelia of Haliburton. Loving grandmother of Kevin, Jerry, Debbie, Randy, Tanya and Jason. Dear sister of Kaye, Marshal and Goldie. Resting at the Gordon A. Monk Funeral Home, Minden from 2 - 4 p.m. and 7 - 9:30 p.m. Wednesday. Funeral service in the chapel on Thursday, June 2 at 11:00 a.m. Interment Minden Cemetery. Memorial donations to the Haliburton County Home Support Service would be appreciated.

IN MEMORIAM

VOICEY: In loving memory of my dear husband Joe who passed away June 10, 1982.

My heart still aches in sadness
And secret tears still flow
What it meant to lose you
No one will ever know.
My thoughts are always with you
Your place no one can fill
While family and friends care
for me well

- Commercial classified display - \$7.50

IN MEMORIAM

And the rolling stream of life goes on,
The memories of our life together
And your picture I treasure well
And pray that I may keep them bright
Until we meet again.

Lovingly remembered and missed by wife Alice.

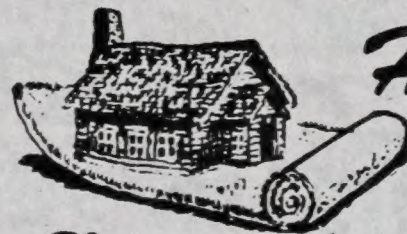

VOICEY: In loving memory of our dear Dad, Joe, who passed away June 10, 1982.

This month comes with deep regret
It brings a day we will never forget,

IN MEMORIAM

In our hearts you will always stay
Loved and remembered day by day,
Memories are treasures no one can steal
Death is a heartache no one can heal.
Life must go on, we know it's true,
But it's not the same since we lost you.
You left us quietly without good-bye,
But memories of you will never die.

Loreta and Dave, Audress and Don, Sharon and Al and families.
